Donating a Horse

It takes a very special horse to be included in a program such as ours. If you have a horse you are interested donating, we would love to talk with you.

All horses in our program have been carefully screened by our NARHA Instructors before they were accepted.

Due to financial considerations, we cannot take every horse that is offered to us for donation.

There are many qualities we require in the horses for our program.

- They must be well trained for riding, English.
- They must have a calm and accepting disposition and be patient yet attentive.
- Our horses must accept a variety of stimuli that are not "normal" for many horses in their daily lives.
- We also require that they be sound and healthy.
- At times we are looking for horses of a certain size or temperament to fill certain slots in our program,

Our team of certified NARHA instructors will evaluate your horse for a 60 day period to determine if the horses possess the unique characteristics essential to becoming a **LOVE for Therapeutic Riding**, therapy horse.

This list is just the beginning of our requirements. Please contact Denise Bishop for further information.
